PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The article was properly prepared and presented. The research may include the following:</p> <ol style="list-style-type: none"> 1. Under "METHODOLOGY" there is a need to include geographical location of the study area; 2. Apart from conservative indicators attention should be drawn to "adoption level" which will show the potency/relevance of the conservative index to farmers practicing them. 3. In table 2 not all the final conservative behaviour index are truly conservative to the environment, some of the agronomic practice distort the ecosystem. Author discretion is recommended. 4. Little reference is not adequate for the article. 	
Minor REVISION comments	Includes more finding and source other related scholars work.	
Optional/General comments	Nil	

Review Form 1.6
