

Review Form 1.6

Journal Name:	Asian Journal of Research and Reviews in Physics
Manuscript Number:	Ms_AJR2P_76157
Title of the Manuscript:	Holographic Dark Energy and Dark Matter Interaction in Anisotropic Bianchi Type-V Universe
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Page 4 Sentence seems problematic: assumes that the entropy of a system scales with surface area not volume not with its volume can be seemed as Not normal English and can be find $H = \dot{a}/a$ find-found Equation (5) Where is " $\Lambda(t)$ cosmological constant" used in the equation?	
Optional/General comments	Whole Letter needs review based on language. It can be seen that the author is not native English speaking. Since this is a science document where mathematical accuracy is needed correction of the English would improve it.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
