Abstract and conclusion must be modified to show the paper novelty and its achievement clearer. 3. Please number lines for better follow up of your paper. 4. Add nomenclature part with units should added. 5. Introduction needs more new papers to improve the article level. 6. Conclusion section is missing some perspective related to the future research work.	
<b>Minor</b> REVISION comments	The queries regarding manuscript have prepared. My point wise queries are as under: In Abstract: The abstract format is not up to the mark. The abstract doesn't present the whole manuscript. In the introduction: The literature review is missing (from 2018-2021) in manuscript. Without literature how can someone define problem and conclusion.
