

Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_79759
Title of the Manuscript:	Methods for deriving linearly independent solutions of the differential equation with repeated roots
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamcs.com/index.php/JAMCS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The article intends to compare two methods for deriving linearly independent solutions of the differential equation with repeated roots</p> <p>The comparisons of the two methods supposed to be more and properly pronounced</p> <ol style="list-style-type: none"> 1. The article intends to compare two methods for deriving linearly independent solutions of the differential equation with repeated roots 2. Typographical errors on line 1 of page 4. 3. Purpose and (or) the motivational drive for the research should be stated. 	
Minor REVISION comments		
Optional/General comments		

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
