| Compulsory REVISION comments | Reviewer’s comment | Author’s comment (If agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
| Minor REVISION comments |
| Optional/General comments |

The article is extremely up-to-date and clinically applicable, mostly in targeting therapy in oncology. The Role of Balance Effect of the TGF-β INDUSED SIGNALLING PATHWAYS IN NORMAL AND TUMOR CELLS IS OF UTMOST IMPORTANCE AS THEY MALIGNANCIES. The authors of the publication have written and presented the theme very well, with a broad overview, including 36 author. The figures presented are comprehensive and very well visualize the text to the article that does not require adjustments. I think there is high scientific value and should be published without corrections in the magazine.

PART 2:

Are there ethical issues in this manuscript? (If yes, Kindly please write down the ethical issues here in details)

Reviewer’s comment

Author’s comment (If agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
