PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Generally this article doesn't fit for scientific minimum requirement. If major revision is made by the author I will review it again.</p> <ul style="list-style-type: none"> ✓ Grammar is wrong ✓ No coherence ✓ Scientifically not sounding ✓ Am not sure wether it is really ectopic <p>For example:</p> <ol style="list-style-type: none"> 1. Ectopic pregnancy is a type of pregnancy not "pregnancy problem" on line 8 2. "The discomfort can be severe, dull, or crampy" Severity is degree but dull and crampy are the types of pain 3. "pain may travel to the shoulder" pain can't travel but radiate or referred 4. "Obstetricians and gynaecologists face a number of obstacles when dealing with emergencies in Jehovah's Witnesses" completely unrelated to the prior statement 5. "emergency diagnostic laparotomy for a ruptured ectopic pregnancy with pyosalpinx and septicemia" is that diagnostic or therapeutic? How did you diagnose pyosalphinx and septicemia? How did you diagnose ectopic pregnancy? As pathologic/histologic evaluation done if not one can challenge you saying this is not ectopic it is tuboovarian abscess 6. "she got stomach cramps" this is not medical terminology instead you can say abdominal cramp 	
Minor REVISION comments		
Optional/General comments		

Comment [Ma1]: Severity is degree but dull and crampy are the types of pain
