**General guideline for Peer Review process:**
This journal's peer review policy states that NO manuscript should be rejected only on the basis of *lack of Novelty*, provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**PART 1: Review Comments**

<table>
<thead>
<tr>
<th>Reviewer's comment</th>
<th>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</th>
</tr>
</thead>
</table>
| Compulsory REVISION comments | This study demonstrates profile of locally advanced breast carcinoma in an institute. It is very important to survey the disease state in developing countries.  
1. Abstract and Results may be revised to describe types of therapies more in detail.  
2. Material and Method may be revised to add the methods to detect hormone receptors status shown in Table 1. |
| Minor REVISION comments | English proofreading is needed. |
