

Review Form 1.6

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_75333
Title of the Manuscript:	Influence of Some Antibiotics and Essential Oils Used Alone or in Combination on the Vitality of Presumptive Probiotic Lactic acid Bacteria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>In the study mainly focus on gut probiotic analysis in essential oils and antibiotics using human therapy. My suggestion is number of gut probiotics are presence in human gut.</p> <p>Then why did you focus on particular lactobacillus sp.</p> <p>In the antibacterial activity section you should mentioned only probiotics gut region section probiotics and other microbes are presence in equal volume other microbes are affected in the section can also formed dysbiosis and then you should not clearly mentioned about lowest highest percentage of volume can affected.</p>	
Minor REVISION comments	<p>In this study why did you selected for particular plants. Any previous data references are available means please compare to clarify the activity in the results section.</p> <p>Bioactive compounds section mention only to identification of compounds not compare to the human therapeutic activity.</p> <p>So my suggestion these types of bioactive compounds what kind of activity in human applications in previous data references. Then clearly mentioned previous data results those kind of activity used now we are used to develop the human therapeutic application or otherwise we are newly focus to treat the emerging developed diseases in human.</p>	
Optional/General comments
